

TESRA

Technical Electrical Sales Representative Agency

June 2025

Electric thermal and sensing solutions
for places of progress.

You will find our solutions in many different
places: chemical and energy process plants,
healthcare & education facilities, airports and
railway stations, data centers, and people's
homes.

BAND-N-GO Inc.
Banding Together with Industry

Offering a full range of stainless steel banding,
buckles, brackets, and tensioning tools for heavy-
duty fastening applications. Their products are
designed for strength, durability, and ease of
installation across utility, industrial, and
infrastructure markets.

Nuheat

chemelelex

Floor Heating Systems ideal room specific heat
source options for both new construction or
renovation projects. Heat Tracing solutions that
keep people and infrastructure safe from harm,
enhance building performance, and bring comfort
into the home.

CONVECTAIR

Convectair has been helping Canadians balance
comfort and energy savings since 1983, with a
range of affordable options to bring comfort home
- even in the harshest conditions.

Raychem

chemelelex

Commercial: Quality solutions for winter safety,
comfort and performance to building and
infrastructure.

Industrial: Advanced heat tracing solutions for
general process, oil and gas, chemical, and power
generation industries.

Dimplex®

For almost 70 years, Dimplex has been the trusted
name for electric heating. Today, it remains the
market leader in the creation and manufacture of
energy efficient electric heating appliances and
systems

Pyrotenax

chemelelex

Protect people, processes & critical electrical
circuits during a fire with PYROTENAX System
1850 mineral insulated two-hour fire-rated cables.
Used to power emergency response equipment
such as fire pumps, fire fighter elevators, smoke
extraction fans, backup generators and more.

POWERSIDE™

Power quality problems can lead to wasted
energy, higher costs, equipment damage, and
system failures—disrupting your operations. Our
solutions address these issues by improving power
factor, regulating voltage, reducing harmonics,
and enhancing system performance.

Valid has designed and manufactured products for
an array of industries. When it comes to your
project, our engineers and production staff are
uniquely positioned to leverage their expertise
and experience to develop a solution that fits your
needs.

wiha
Tools that work for you

Global leader in creating professional-grade,
premium hand tools. Wiha values of safety,
quality, innovation, and customer service drive
thier work. Advanced German engineering is at
the heart of each of the more than 3,500 products
offered.
